

07 December 2022
San José, Costa Rica.

To the attention of
UNITWIN/UNESCO Chairs Programme.

Abelardo Morales-Gamboa, Professor at the National University of Costa Rica, writes to express the support of the Academic Committee of the Doctorate in Social Sciences of this University for the renewal of the UNESCO Chair Migration, Development and Human Rights at the Autonomous University of Zacatecas, coordinated by Dr. Raúl Delgado Wise.

The activities developed by the Chair are an important reference for academic research and cooperation on public policies on migration and human rights to our university and other academic centers in Costa Rica. Consequently, the continuation of the Chair's work will allow us to continue collaborations both with our university and with other academic programs of which we are a part in the Central American and Caribbean region.
Sincerely,

Abelardo Morales-Gamboa, PhD.
Professor and Academic Committee Coordinator
